Your Transportation Guide

Thank you for using passenger transportation. It’s good for you and good for all of Maine! When you “share the ride” you use less gas, contribute to cleaner air, and minimize congestion which results in safer roads. You’ll also save money if you’re not maintaining a car.

This guide is designed to help you and those who care about you. It lists questions you should consider, provides spaces for phone numbers you can fill in, and offers resource information.

If you have access to the web, there is a lot of useful information there. MaineDOT has a website www.exploremaine.org that lists transportation services throughout Maine. If you don’t have a computer, your local library has access to the web.

Consider this booklet a tool for you to mark up and fill in as you go along. Call us at (207) 624-3300 if you need another copy for your family or caregivers. We are always happy to help.

Office of Passenger Transportation,
Maine Department of Transportation
(207) 624-3300
Ready? Let’s begin by listing all the places you need to go

Check the places that you can’t reach without some transportation help.

☐ Work  
☐ Grocery Store  
☐ Childcare  
☐ Hairdresser  
☐ Pharmacy  
☐ Medical Appointments  
☐ Religious Service  
☐ Support Groups  
☐ Social  
☐ Other

Now, group these activities. Can you use the pharmacy at the grocery store or is it close to the doctors? Can you combine a hair appointment with grocery shopping?

**List your good combinations:**

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
Be ready to discuss these questions before you call for information on transportation options.
(A list of transportation providers in your area is available upon request)

How much advance notice is required to arrange a ride with your local provider? ________________________________

Is the transportation service door to door? If not, where is the closest pickup or drop off location? ________________________________

What is the origin of your trip? ________________________________

What is the destination of your trip? ________________________________

Will you need to provide directions? ________________________________

Will there be intermediate stops, such as the pharmacy or grocery store? ________________________________

How many will be traveling? ________________________________

What time do you need to be picked up? ________________________________
Now that you know where you want to go, let’s look at how you want to get there.

Here are transportation options you may want to consider:

- **Friends, family and neighbors** – can be people you know or drivers you can connect with through others
- **Fixed Route Transit Bus - your city bus**
- **Demand Response Bus** – usually provided by a community transportation agency
- **Agency vehicles** – such as hospital shuttles
- **Faith-based transportation services**
- **ADA Para-Transit Services** – available only if you are not able to ride a Fixed Route Transit Bus. These services are usually provided by community transportation agencies.
- **Taxi**

**Friends, Family and Neighbors**

No one likes to depend on others. But, you may be surprised at how many people would be happy to help. There may be willing friends, family, neighbors or volunteers at your church, a civic group or at the hospital volunteer office. Let people know you may need a ride from time to time.

If you have someone willing to drive you, you’ll want to make it simple and convenient. Ask potential drivers about their schedules and plan around that. If they do grocery shopping in the evening, try to do your shopping at the same time. If they have a favorite TV show, try not to schedule appointments during that time.
In case of emergency, have a backup plan with someone other than your regular driver.

If you have arranged transportation with someone and you can’t go, let your driver know as soon as possible.

Most importantly—show your appreciation often—say “thank you” or offer to buy gas or a cup of coffee.

**Volunteer Drivers**

Agency volunteer drivers have been screened and trained to ensure your trip is safe. They are available to assist you if you call the Community Transportation Agency. They are on a schedule.

You may also be asked to share a ride with someone else.

Agency volunteers are not allowed to accept payments or gifts, but they do appreciate a “thank you.”

**Other Transportation Options**

Public transportation is “curb to curb”—like a city bus. Community transportation can be door to door, depending on your situation. You may want to call your local community transportation agency to see if you qualify for transportation help. The phone numbers of these organizations are listed at the back of this booklet.

When you call, be prepared to answer some questions. The first screening may take 15 to 20 minutes.
Some questions they may ask:

Do you have MaineCare (Medicaid) coverage? 

_____________________________________________

Your social security number* and date of birth 

_____________________________________________

Do you use equipment or support when you travel? This would include:

☐ An Attendant
☐ Wheelchair
☐ Cane
☐ Walker
☐ Service Animal
☐ Oxygen
☐ Scooter
☐ Other _________________________________

You may be asked to share your ride with another passenger.

* You are not required to give out your social security number. If you prefer, the Transportation Agency can insert a “placeholder” social security number for you.
Some questions you may want to ask:

If I have a wheelchair or scooter, will I stay in my wheelchair or be asked to transfer to seat?

Is there an attendant in addition to the driver?

Can the driver assist me in any way if I need it?

Can my family member come with me? If so, is there an additional cost?

How will I know if the vehicle is there to pick me up? Will they beep or come to the door?

What does the vehicle look like?

Will there be a wait when my appointment is done? If so, how long?

Will the driver come inside the office building for the return trip?
Will there be other passengers? ____________________________

________________________________________________________

Is there a fare? ____________________________

________________________________________________________

How do I cancel the ride? ____________________________

________________________________________________________

Is there a no show fee or policy? ____________________________

________________________________________________________

Other questions ____________________________

________________________________________________________

________________________________________________________

________________________________________________________

________________________________________________________
Public Transportation Made Easy

Being prepared to use a bus or other public transportation can simplify your life.

- Plan for the occasional wait. Take a book, crossword puzzle, cell phone or anything else that will help you pass the time.
- Keep a healthy snack in a zip-lock plastic bag. Bottled water, dried fruits, nuts or crackers should tide you over until you get home.
- Keep the phone number of your transportation provider with you. If you have been waiting longer than 15 minutes, call and ask if they can give you an estimated wait time.
- Tell your doctor, dentist, hairdressers or others, (or the receptionist) that you rely on a public transportation.
- Ask the public transportation provider for a copy of the schedule. Give that schedule to those who book your appointments and keep a copy for yourself.
- Schedule your appointment when public transit service is available.

Regional Transit Providers

The information on the following pages has been provided to assist with researching options for the development of individual transportation plans. The examples demonstrate the type of information available such as names of service providers; how to contact, who is eligible to use each provider; and estimated costs which will assist you when exploring the transportation options that meet your/your client’s needs.

If you do not have access to the internet, you should be able to obtain a printed copy of “Community Transportation Options by Region” or the complete “Education and Transportation Planning Guide” at your regional Department of Health and Human Service office; the Regional Transportation Provider’s office; your hospital social workers office; local Agency on Aging; local municipal (town) office or from the social service agency involved with assisting you. Municipal offices may charge a fee for printing. If you prefer, your local library or school may provide free internet access which allows you to review the information contained in all documents at www.exploremaine.org/bus.

TRANSPORTATION REGIONS

Region I: Aroostook County, Danforth and Patten

Region II: Washington and Hancock Counties excluding Danforth & Isle au Haut

Region III: Penobscot and Piscataquis Counties excluding Patten

Region IV: Somerset and Kennebec Counties, and Troy, Unity and Burnham (these three communities serviced by Region V Waldo CAP)
Region V: Waldo, Knox, Lincoln and Sagadahoc Counties, and Troy, Unity and Burnham (these three communities serviced by Waldo CAP), and Brunswick, Harpswell (these two communities serviced by Coastal Trans Inc.)

Region VI: Cumberland County excluding Brunswick and Harpswell (these two communities serviced by Region V Coastal Trans Inc.)

Region VII: Oxford, Androscoggin and Franklin Counties excluding Porter, Hiram, Brownfield, Denmark, Sweden, Fryeburg, Lovell, Stow and Stoneham (these communities serviced by York CAP Region VIII)

Region VIII: York County and Porter, Hiram, Brownfield, Denmark, Sweden, Fryeburg, Lovell, Stow and Stoneham

DEFINITIONS OF SERVICE AND MODES

Regional Provider
This is an agency that has been designated by the State of Maine to provide coordinated transportation within a specified region. They are funded to provide both general public and social service transportation. Service may be provided in accessible buses and vans, and private automobiles with volunteer drivers. They will also assist with friend or family reimbursement for MaineCare eligible trips. Service may be offered on fixed routes, door-to-door or curb-to-curb demand response. Fares are charged for the general public based upon distance traveled. Social service trips are funded through various contracts and are generally offered on referral from the funding agency (usually no cost to the rider). May require a reservation for general public service, and generally requires a reservation for social service appointments.

Social Service Provider
This is an agency that is not designated or funded to provide public transportation (although they may). Social service transportation is
provided through various contracts. The service is generally offered in private automobiles with volunteer drivers (they may have paid drivers and may use agency vehicles as well). They may also reimburse friends or family for MaineCare and other eligible trips. Service may be offered on fixed routes, door-to-door or curb-to-curb demand response. Social service trips are funded through various contracts and are generally offered on referral from the funding agency (usually no cost to the rider). Generally requires making a reservation or providing advance notice.

**Fixed Route Provider**

This is an agency that is designated to provide service on a fixed route with a schedule offering pre-planned stops (curb-to-curb service) within a certain time frame. Services are open to the general public, buses are accessible, and fares are charged based upon distance traveled. No advance notice required. MaineCare will pay for a monthly bus pass for eligible individuals who meet minimum requirements as determined by the designated MaineCare provider.
